

## Profil 1: mature man seeks russian fiancée, preferably christian

This profile is probably the most disturbing of all as the man launches very unhealthy searches that betrays deep despair.

Search profiler: Raphaël Richard, CVFM

This search

history begins with a dating site the user already knows « true.com ». He apparently connects to this site, follows the subscription process till the end to eventually discover that he has to pay a monthly fee to get into touch with women. That is why 20 minutes later at 7:22, he looks for a free online dating site, which requires no credit card. Later on in the day, at 15:08, this man, who's unemployed as we will discover it in his future searches, seeks XXX sites (cameltoe.com). He types several searches related to this subject, among which one is directly connected to pedophilia (15:43). This clearly shows severe sexual disorders. He abandons his websurfing and comes back the next afternoon searching this time, for a free XXX site where no credit card number is asked for.

Around

9pm, he reconnects after diner to find a chip that boosts his vehicule engine performances. It is to be noticed that he visites three sites (as he launches the same search three times) before going to another sharper search, that indicated the year of the car (high performance chip for 2002 f 150 ford).

The next day

at 7, he goes through aol.com to reach Yahoo.com where he may hopes to find more relevant results. He comes back after 30 mn to AOL, as his Yahoo led to a dead end. He enters a new series of XXX searches for one hour. In the midday, as he is unable to connect to <http://bft.fpcgalleries.com> through his navigatio bar, he types this adress in the AOL search engine box and doesn't find the site, so, at 13:18pm he looks for another XXX site where women looks for dates. As usual, he looks for free dating sites. He refines his query by targeting small women.

On march

4th, after a short early morning XXX search, he seeks a job (subcontractor work in the voice and data communications field), that turns into a search for a company (find interconnect telephone companies).

On march, 6th,

he looks forwards to connecting an online dating site he may been exposed offline to, through advertising (mate1.com) and he looks detered by subscription fees. Hence, he conducts a free dating site search. One hour later, he launches a more serious search for a place where people of the same religion as he, 30 minutes before looking again for XXX material... but he comes back on the right track 4 minutes later, relaunching christian dating site searches. Apparently, none of the 10 sites he then visits meets his demand, as he keeps coming back and forth to the resultat page. He probably connects to a site where he meets someone who wants to chat, as he is trying to download a chat software, Aol messenger. May be he connects at 16:27 on yahoo to to download Yahoo messenger.

The man is

poor but has decided to divorce his wife, now that he has tested dating sites, he looks, on thursday, march 7th at 20:23, after diner, a way to divorce with no charge. Now, nothing will deter him from meeting a woman: he connects to a christian dating site, singlesoffaith.com, he may have identified two days before.

On friday, at

11:06, he begins again a job search and a 13:42, he looks for spiritual food (free accredited theology and counseling degree and lessons).

Former military professional, he looks to obtain a related certificate (dd214), on saturday, march 9th at 16:55. Finding only commercial sites, he then looks for the official US army website. He, thereafter, does his first political search ((tallahassee democrate).

That is the first piece of evidence, he lives in Talahassee, Florida.

By the end of this day, he decides to frind another way not to be alone anymore: four days in a row, he looks for a puppies provider, located in Florida.

On the 12th of march, he goes through AOL to connect to yahoo.com where must be searching for 3 hours. He comes back to AOL search engine at 18:18 to find bible courses.

Obviously, he has established contact on singleoffaith.com as he reconnect on march, 13th.

But as he can't conclude, he looks again on march, 16th, for sexy women. To exchange his BP loyalty program points, he connects on monday, the 20th of march, at 8:24 to the AMOCO/BP site: [www.bp.accountonline.com](http://www.bp.accountonline.com)

Following a visit to a doctor or a television broadcast, he looks at 16:29 for information about eye retina transplant surgery. On march, 22th, he visits for the first time [adulthoodfinder.com](http://adulthoodfinder.com), probably after an ad pops up, as this company maintains a high pressure ad campaign on the web, mainly through intrusive advertising. The site seems too crude for him as his next search enables to infer (church singles dating).

This former christian, single, pet lover, former soldier still with strong natural needs, living in Talahassee, wants to forget his loneliness playing video games, such as Red Squadron, for which he looks for cheats codes (marche, the 24th, 15:38)

Is it because he a newbye in the bio movment, or is it because he wants to impress a women with a present full of sense, he connects to 15:09, on march, 25th to [tytyga.com](http://tytyga.com), an ecommerce site selling green stuff.

This present does produce the expected effect and his date is probably a failure as on march, the 28th, he looks again for a dating site and one hour later, he decides to enter an industrial phase: he looks this time for an exhaustive list of online christian dating sites (all christian dating). The same day, new job search.

On march 29th,

the man widens his search: he looks for a women all over the USA and then focuses on Florida. But, may be following a friend advice or out of simple fantasy, he looks for homely ladies (free dating for homely women in tallahassee florida). Then, he looks for a shop (Jim's telephone service).

On march 30th,  
he explore the idea of changing social classes. After an happy evening chat with his friends, he looks for an older women, but with substantial belongings. He apparently finds a site which states that demands from old wealthy portuguese or brasilian women is strong: he looks for free portuguese courses.

Test of a new dating site: plentyoffish.com, which seems deceptive as he immediately looks for absoluty free dating sites.

March 31st,  
new job search. Unfortunately, during that day, his desktop is infected by a virus, which leads him to connect to his antivirus software publisher web site to get an update (grisoft.com)

On april1st,  
new search for dating site, with chat fonctionnalités (free christian dating free email free im), but the search is tough: he keeps on launching 7 times in 2 hours. The day after, short visit to seniorsizzle.com, presumably in the frame of his wealthy women about to die.

On april 3rd,  
he shouts his dispair to AOL search engine (I need a woman).

On april 5th,  
he feels he is about to get a date and looks for a place, a Star Buck Coffee shop at 11:59.

On april 10th,  
at 20:23, still in search for work, he decides to mix plaisure and money. He wants to identify about a possible need for "ugly women that will pay for a date and sex free site"

On april 18th, he pinpoints a used mustang GT and loooks for wheels (17;27), but does not find the desired model at "eagle wheels". Later on, he looks for spare parts ("cheap or free part for 1985 mustang GT").

On april 22nd, his drinking starts early and he can't remember the site where you can meet women for sexual relationships only. Is it hornymatch.com, horneymatch.com or hornymatches.com ?

Back to spirituality the day after at 21:23, with a search about "deliverance of ancestral curses".

The next day, the single military tries to obtain information about getting back part of his taxes back.

New search about [heartdetectives.com](http://heartdetectives.com) on april,

25th at 20:07, may be after he saw an ad in the local newspaper.

He tries to connect to a grocery site, [gainsvillraceway.com](http://gainsvillraceway.com) but the domain name does not answer any more when he types the address into the navigation bar, so he uses AOL search engine to look for the domain (a common reaction among internet users when someone's does not succeed in connecting directly to a web site). But, early may, this handyman looks for spare parts for his Ford Mustang, with which he intends to run car races.

For this project, he expects to rely on an old lady looking for a poor guy (may 8th, 15:22) and on The Lord, [perrystone.org](http://perrystone.org) (may 8th, 23:32).

On may 11th, he realizes that he has hardships to seduce women through internet because of his written skills, so he looks for ways to improve his style (free help writing essays, 17:33pm). At 19hour, a long phone call with one of his friend, who just married 22 year old russian Katherina, opens new search tracks

(absolutely free russian dating free email no charge ever, around 20:36).

He discovers a site [womenrussia.com](http://womenrussia.com) where he finds a scam: a russian women asks him to send \$200 on a PO box through Western Union. He feels the scam and checks info by typing the address of the so called russian bribe (may 13th, 15:37). He finds a site that confirms him this actually is a scam ([stop-scammers.com](http://stop-scammers.com)).

This does not deter the single man, who gets into contact with other women, for who he wants love poems in russian (may 15th, 15:46).

The following week, he focuses his searches on the town of Cheboksary, capital of the Chuvash Republic, where one of his onlin encounters lives. Feeling strong because of his russian successes, he extend his market radius and looks for bribes coming from other countries as long as he can keep his credit card inside his wallet (free foriegn dating site no pay ever free email free im no fees ever).

His non financial investment seems profitable as he seeks ways to bring his russian bribes free of charge to the US (may 24th, 15:27:"help a russian wife get to the usa for free, help a stranded russian wife get to the usa for free"). Within a few minutes, the mans sees himself married to the russian wife and begins a strange dialogue with AOL search engine ("my new russian wife is stranded in russia how do i get her to america for free"). He explores news esoteric ways (what [church.org](http://church.org) can bring my russian bride to the usa as sanctuary) and looks for american embassies in Russia at 15:51.

While keeping in touch with his russian girlfriend, his looks for other contacts on may 25th at 13:11 (low cost russian mail order brides free email free contact).

On may 27th at 9:26am, eventually accepting that there is no way to have his russian bribes

shipped to the US for free, he decides to get to Russia himself ("map of russia", "cheapest flights to moscow"). Two days later, two searches betray his lack of experience of travelling abroad ("find a passport free", "find a world passport & visa but not traveling immediately").
